PARDON ABUSES.

Every respectable citizen of the United States must face the hideous fact that his life and property are daily becoming less secure. With our great army of officers of the law, we are still at the mercy of a horde of criminals to an extent which is nothing less than a national menace.

Through our archaic criminal procedure, coupled with the new theories of crime which deny the crimianl's responsibility, it is becoming more and more difficult to secure convictions, even for perpetrators of the most flagrant outrages against so-

When, perchance, we succeed in placing a murderer or criminal of less degree behind the bars, many of our governors and pardoning boards stand ready and eager to pardon and parole, thus setting at nought all the labors of peace officials and

In a Texas newspaper we read, for example, that Mrs. Ferguson, the new governor, has averaged about four pardons a day since she has been in office, or approximately 350 criminals turned loose upon society in the first 90 days of her term. We have not verified these figures, but as they are published and comment ed upon at length by the newspaper in question, we assume that they are substantially correct.

Such wholesale exercise of the pardoning power is absolutely indefensible and is an affront to the judges and juries of that great State. It is inconceivable that such wanton disregard of duly pronounced verdicts can have any semblance of iustification.

In several other States an almost equally deplorable tendency abuse of pardon authority might be pointed out. All this is a sickening travesty on justice. It is enough to make one fear for the safety of the

SOME PURITAN CUT-UPS.

Those who depend on the regular historical works of the school book type no doubt have formed the idea that the Puritan forefathers (and foremothers) of New England were about as perfect as folks could be.

The iconoclasts have been at work again, however, and have dug up some old records which appear to show that human nature was about the same in the old days as it is at present. A recent writer quotes at length from a Massachusetts court docket of 1646, of which a few sample cases are given as follows:

Henry Walton fined for saying he would as leave hear a dog bark as to hear Rev. Cobbell preach.

John Studley fined for stealing his master's ox and selling it to him. Thomas Gray, of Marblehead whipped for being overseen in drink.

Philip Crumwell fined for not living with his wife. William Claus whipped for spying

into the chamber of his master and telling what he saw. Charles Phillips fined for being in

drink three times in two days. Mrs. Griffith fined for swearing. Sarah Parrige fined for wearing a

State's Progress Reflected In Telephone Growth

HE growth and progress of Mississippi last year was required the services of 1,238 strikingly reflected in the large investment in additions and extensions to the telephone system.

Such an active year of construction has rarely been experienced in the State, and, as a result, the telephone service is more extensive and more valuable than ever before.

telephone workers handled 17, 409 telephone stations, making a not gain of 3,509 new telephones and involving gross -matery 1965 feza

To accomplish this big task workers, whose annual wage bill was \$1,275,192.

The investment in service in Mississippi as of December 31, 1924, was \$9,170,072, and there are now 49,278 Bell telephones in the State.

Some of the items included in the investment are 132 central offices, 144,702 miles of wire, 4,574 miles of pole line In Mississippi last year the and 61 miles of underground

Dr. Shipp was with us during the chapel Monday morning. He gave us a splendid address, which we enjoyed very much. His subject was "Morals and Health." He explained how each depended on the other for its existence. The fact that civilization has hindered the progress of health was brought out. Every effort must be made to correct the now ex isting harmful condition.

Only two more weeks of school Some of us are glad and a few are sad, for to some it means that their school days at Bay High will have ended. The graduating class will be stepping out of school life into life's school. Let us all remember to practice persistence, willingness to do the right thing, and the Golden Rule. Be sure to earn your salary. Begin at the bottom of the hill, and gradually work your way t othe top. Let going over the top be your goal. ROCK-A-CHAWS DEFEAT CASEYS Win Easily by Score of 7-2-Heydel in Top Form.

Forster Commagere's nifty bunch of Rock-a-Chaws met the K. C. No. 714 team of New Orleans last Sunday out on Rock-a-Chaw field and the visitors were treated to a real diamond jubilee to the tune of seven to two before a fair crowd of ayed-in-

the-wool fans. The Rocks touched up Quinn for ten hits, two of them being of the extra base variety, while the Caseys were held well in check by "Pirate" Heydel, who allowed but six hits and refused to let them bunch the bin-

The College lads put the clamp on things in the first inning, when they scored a brace of runs, as per: Hoo's Baron led off the order by swatting out a drive to left center that parked him on second base. Rinaudo went safe on short field, putting Hoots on third. Baron scored on Zeke's single and Montz drove a bingle that tallied

Another run was added to the scoreboard in the third, when Rinaudo singled through third, went to the keystone on Viada's sacrifice and scored when Dousson muffed Big Zeke's long fly to left. Zeke went out on the hot corner when he tried to rubberize the play.

The Caseys started a rally in both the fifth and sixth spasms, but could not locate the "Jolly Roger" for more than a run in each period.

Thinking possibly that the Caseys were seriously intending some scoring and the totals appearing a bit too close, the scrappy Rock-a-Chaws went into the sixth with blood in their eyes and emerged with a quartette of runs that froze things up solidly—as per:

"Aintegrand" Blaize lined out a two-bagger to left, Charlie Jaubert bunted, Blaize went sailing towards third, but turned back when he saw old man Trouble down there; having him between the bags, the Caseys tried to trap him, but "Aintegrand" reached second safely. Heydel got a soaker on the hip and filled the bags, with none out. Baron found one of Quinn's benders and nailed it through third, scoring Blaize and Jaubert, Baron taking second on the throw to plate; Rinaudo hit to third and Heydel was caught at home. Viada laced out a double to left garden that brought in Baron and Rinaudo.

That ended all the run getting for the day, with the Rocks sitting on top of the world.

A couple of pretty plays were pulled off during the game that put the tobasco in it. Timkin, playing center for the Caseys, brought the crowd to their feet in the fifth when, with a long run, he made a shoestring catch of Montz's long drive, robbing Matt of a double. Bonura pulled a bouquet of roses when he knocked down Foy's grass cutter on the run and pegged the runner at first with a beautiful throw.

Heydel was the only batter hit by a ball and he got it twice, but was none the worse for the blows.

Timken's triple in the fifth was the longest hit of the day, and ended in a run when Gernon placed a Texas Leaguer over short.

Another 'Bull' Durham adver-tisement by Will Rogers, Ziegfeld Follies and screen star, and lead-ing American Humorist. More coming. Watch for them.

TEW YORK is building some more of those subways under the ground. No use building any more, people can't find their way out of the ones they got now. There's people down underground in New York that haven't been up for years. New York people are just like a lot of Gophers; every time they see a hole in the ground they grab a nickel and duck for it. If they keep on living underground, in two more generations their chil-

dren will have fur like a rat What's this Subway got to do with 'Bull' Durham

Nothing. What do people outside New York care about how New Yorkers live?

Nothing. But there is an old saying that one half the world don't know how the other half live, so I am telling you how they live, not as an Ad but as a fact. Five million Ground Hogs in New York rush through life missing one Train and being shoved into the next. The real trouble is that they can't smoke 'Bull' Dur-

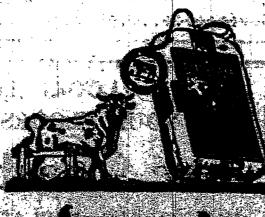

ham down there.

P. S. I'm going to write some more pieces that will appear in this paper. Keep
